

Annual Report and Action Plan

Company Name: **ADT Group Holdings Pty Ltd**

Trading As: **Forever New**

ABN: **35144849436**

About APCO

Australian Packaging Covenant Organisation (APCO) is a co-regulatory not-for-profit organisation leading the development of a circular economy for packaging in Australia. APCO's vision is a packaging value chain that collaborates to keep packaging materials out of landfill and retains the maximum value of the materials, energy and labour within the local economy.

Each year, APCO Brand Owner Members are required to submit an APCO Annual Report and an APCO Action Plan. This document is the Annual Report and Action Plan output for the organisation listed above. This document provides the overall performance level of the organisation, as well as any commitments they have made to work towards on their packaging sustainability journey. This document may also include additional information provided by the Member in their report.

Overall Performance **Leading**

The chart below indicates the overall performance level of this organisation listed above in the 2025 APCO Annual Report. The organisation's reporting period was **July, 2023 - June, 2024**.

Understanding APCO Annual Reporting performance levels:

- | | |
|--------------------------------|--|
| 1 Getting Started: | You are at the start of your packaging sustainability journey. |
| 2 Good Progress: | You have made some first steps on your packaging sustainability journey. |
| 3 Advanced: | You have taken tangible action on your packaging sustainability journey. |
| 4 Leading: | You have made significant progress on your packaging sustainability journey. |
| 5 Beyond Best Practice: | You have received the highest performance level and have made significant progress on your packaging sustainability journey. |

APCO Action Plan Commitments

For each of the Packaging Sustainability Framework criteria listed below, a description is provided along with the commitments made by the organisation in their APCO Action Plan.

Criteria 1:

Governance & Strategy:

This criteria considers actions to integrate packaging sustainability into business strategies.

- Develop a strategy that includes goals (objectives) and targets for packaging sustainability that addresses the Sustainable Packaging Guidelines (SPGs) or equivalent.
- Include a commitment to achieving the 2025 National Packaging Targets in our strategy.
- Have our executive or board of directors review our strategy and have the strategy integrated within our business processes.
- Regularly communicate and promote packaging sustainability objectives and targets within our organisation.
- Regularly engage or communicate with our external stakeholders about the environmental impacts of our packaging.

Criteria 2:

Design & Procurement:

This criteria considers actions taken to ensure that sustainability principles are considered in the design or procurement of both new and existing packaging through use of the Sustainable Packaging Guidelines (SPGs).

- Review **95%** of our packaging against the Sustainable Packaging Guidelines (or equivalent).
- Incorporate the Sustainable Packaging Guidelines (or equivalent) into procurement processes.
- Consider the following Sustainable Packaging Principles in our packaging reviews:
 - Design for recovery
 - Optimise material efficiency
 - Design to reduce product waste
 - Use of renewable materials
 - Use recycled materials
 - Design to minimise litter
 - Design for transport efficiency
 - Provide consumer information on environmental sustainability
- **93%** of our packaging to be optimised for material efficiency.

Criteria 3:

Recycled Content:

This criteria considers actions taken to increase or optimise the amount of recycled material used by your organisation.

- Develop a policy or procedure to buy products and/or packaging made from recycled materials.
- Use recycled content in:
 - Our products
 - Primary packaging that we use to sell our products
 - Secondary packaging that we use to sell our products
 - Tertiary packaging that we use to sell our products
 - Other items which we purchase (e.g. office stationary and suppliers etc.)
- 96% of our packaging to be made using some level of recycled material

Criteria 4:

Recoverability:

This criteria considers actions taken to improve the recovery of packaging at end-of-life and increase use of reusable packaging.

- 3% of our packaging to be designed to have all packaging components be recoverable at end-of-life.
- Use PREP to assess the recyclability of our packaging through kerbside collection in Australia and/or New Zealand.
- Investigate opportunities to use reusable packaging.
- 5% of our packaging to have all packaging components that are reusable.

Criteria 5:

Disposal Labelling:

This criteria considers the extent to which packaging has been labelled to help consumers determine what to do with packaging at end-of-life.

- 95% of our packaging to have on-pack labelling to inform correct disposal.

Criteria 6:

On-site Waste:

This criteria considers progress in increasing the amount of on-site solid waste being diverted from landfill.

- Have recycling programs for the following materials:
 - Paper/cardboard
 - Soft plastics
 - Textiles
 - Forever New engages In Confidence for both paper and plastic recycling from our Head Office.

Paper/cardboard: In the reporting period, 584 paper document bins were collated, estimated weight of 23.36 tonnes. This paper is shredded and recycled into copy paper and other types of paper for printing industries.

Plastic: In the reporting period, 72 bins of clear soft plastic, with an estimate weight of 0.576 tonnes were collected. During this reporting period the plastic is recycled in Australia.

Product shredding: Some fabric hangers and fabric scraps that contain our IP are shredded and recycled through the same company managing our paper and plastic recycling in head office. In the reporting period, 66 boxes were collected, estimated weight of 0.66 tonnes of fabric.

Ink cartridges: Ricoh, our appointed print service provider also collects and recycles all used ink and toner cartridges used in our head office and distribution centre at Truganina, Victoria.

E-waste: All E-waste at Forever New is recycled through local council services. This reporting period, we recycled the items listed below through the Stonnington Council E-waste recycling scheme:

Mobile phones, Ipad and Tablets: 26

Monitors and stands: 64

CCTV: 12

Mice & keyboards: 85

Headsets: 12

PC & Laptops: 50

POS systems: 9

Receipt Printers: 18

Misc (eg. cords): 181

- Aim for 65% of our on-site waste to be diverted from landfill.

Criteria 7:

Problematic Materials:

This criteria considers the extent to which organisations are actively phasing out problematic and unnecessary single-use plastic packaging and preventing/reducing litter.

- Help reduce litter by:
 - Conducting regular clean ups
 - Delivering a litter education campaign
